# Raw Dog Food: Make It Easy For You And Your Dog

## **Synopsis**

Raw feeding is the hottest topic in dog care today. You may have heard about the "BARF" diet - Biologically Appropriate Raw Foods. Learn why and how to feed your dog this new (but really OLD) diet. "Raw Dog Food: Make It Easy for You and Your Dog " explains in simple, friendly and understandable terms the logic behind this approach. This fun and slightly irreverent book shows you how feeding your dog a raw diet can be effective, economical, and easy for you and healthy for your dog. Learn how to make it work for your dog and you!

## **Customer Reviews**

I have been feeding my dogs Biologically Appropriate Raw Food BARF for one year now. I cannot imagine ever buying a bag of dog food again. My dogs nasty ear infections are gone, their teeth are gleaming white and their poops "magically" disappear in my yard. Their coats are shiny and healthy and they have no joint problems, gas problems or skin problems. As humans, we do not sit down and calculate every vitamin and mineral in our diets and it is not necessary to do this for our dogs. There is no recipe for feeding your dogs a healthy raw diet, only a guideline. This book is a great beginner book for feeding raw food. It does not go into scientific details because you do not have to be a scientist to feed a dog, or yourself for that matter. I know that in the old days there was no such thing as kibble and I cannot remember ever hearing of someone's dog having things like cancer, skin infections, allergies and diabetes. Nowadays, all I hear is how sick everyone's pets are! Dogs are not designed to eat a diet that is 40-60% corn and other grains such as found in kibble. The meat and by products in dog food are just horrible! They are allowed to use roadkill in dog food! I am

a Nurse Practitioner with a Masters degree in science and I know that most disease in the U.S. is caused directly by our terrible diet. If you love your dog then you should strongly consider changing to this raw food diet. Your dogs will be happier and healthier then they ever could be if they are eating kibble. People are healthier when they eat a whole food diet and dogs are healthier too. In the wild, a dog would eat only raw meat and occasionally some grass.
