Customer Reviews

This is not a long book, but it covers a lot; the origins and history of miniature Bull Terries, their temperament and needs, how to choose a puppy, basic care, the whole thing. But the stars of the book are the many wonderful pictures, from week old puppies to champion show dogs, they are completely charming. So read the book, learn something, and have a wonderful time looking at the pictures.

It appears someone did not proof read this book before publishing. Too many errors, not only with words but with captions under photos of who owns the pictured dogs. I found too many "advertisements" thru-out the book suggesting the purchase of food, treats, toys etc. I feel a person looking for a good book on Miniature Bull Terriers should purchase a Bull Terrier book instead, make sure it's not one of same publisher, and they'll get more information and correct information that they can apply to a Mini Bull as the only thing different is the size.

I found lots of errors in this book. Many dogs and owners are misidentified. I did not find much about

this book to be helpful.
