Customer Reviews

The CPOA (California Peace Officer's Association) has finally given their approval to one of the peace officer preparation books. Although there are many books, this is the first book to be written with California's Civil Service testing process in mind. Other states have different methods for application, but this book zeros in on the information needed for California. I recommend this book

to any applicant for a California Peace Officer position.

This was my first civil service exam, and I wanted to be prepared. I looked at more than six different books, and decided on this one. On test day, when I opened the test booklet...I knew I picked the right study guide. The test I took was EXACTLY the same format, just different words and situations. The practice tests and other study aids provided within this book made the exam a breeze. I scored the second highest in the group, and I was offered a job with every law enforcement agency I applied for. I'm almost done with the police academy, and I'm working for the agency I really wanted to work for. It's a great feeling to be prepared, and I recommend this book to anyone who is interested in testing for law enforcement agencies in California. GOOD LUCK!!!

I just took the written Exam for the "Evergreen" police Academy in San Jose California. Though I don't know my test score as of right now (find out in two weeks from now) everything that they talked about (and how they went about it) was on the test. If you live in California and are currently about to take the current P.O.S.T. written exam, this is an obvious book to read.

This book had a lot of useful information and at some points a bit overdone but a must if testing for a law enforcement agency in California. This is all I studied and I did well.

I have been studying this book for the past 4 months it is very helpful to prepare you for the California Post police exam. I first checked this book out from the library. But it was so useful to me that I bought it here at . So far I have pass one test with one police department, but I am still trying other departments. This book focuses more on the California post model style be advise that some Police Departments use their own test and not the post exam. For example, San Diego Police Department, Escondido Police Department, Beverly Hills Police Department and so on. Before you take a written test be sure to ask if the department uses the Post exam. This book is great preparation and I recommended to anyone who wants to prepare for the California Post police exam.

I ordered this book along with, "Police Officer, 14th Edition by Hugh E. O'Neil," for my brother as he intended to enter into the academy here in California. He did pass his test (after a couple tries) so I am giving this 4 stars. It is the better of the two I ordered, and had more specific information tailored to the specifications of the California law enforcement exam.

Excellent book to study for any California police test. Helps you with basic foundation of what will be on the test and gives you helpful educational - grammer, reading comprehension, and spelling practice. Excellent! My score has risen since I took the test and now waiting for chief's interview and in process with other agencies (physical and oral boards).

This book is useful for other information but for taking the actual test.....it's not good. I was scoring mid 80's on the test in the book and when I wrote my POST exam Jan 10 2015 I scored a 48.4% the actual POST exam is way harder and don't waste your money on this book. It's sad but it need to be updated. If you have any questions ask.
