The Protestant Wedding Sourcebook: A Complete Guide For Developing Your Own Service

Synopsis

Sidney Batts encourages ministers to work with engaged couples to create unique, individual services that will be meaningful to the pair on their wedding day. The couple is able to give a personal touch to their ceremony by having many options from which to choose. The end result of the minister's and couple's efforts is a service that retains what is best of traditional form and language, but does not include unnecessarily archaic or sexist terms.

Customer Reviews

This Book helped my Brother and his wife to create their own unique wedding ceremony along with the Reverend of our church and it made it a very unforgettable day too.

This book allowed my husband and I to pick and choose our ceremony. We were able to make our wedding unique and our own while holding to a Christian tradition.

I give this book to couples planning their wedding service. The worksheets help the couples put the service together. I like the many wedding services from Protestant Christianity. I would like to see a formatted CD for the worksheets, so I could print the service from a file.

Arrived in record time...in very good condition. Excellent resource for clergy doing wedding services...couple can create their own service!
