# Paracord Project Inspirations: Classic And Original Knots And Ties For Fundraising, Fashion, Or Fun

## Synopsis

Paracord Project Inspirations (PPI) is another impressive addition to bestselling author J.D. Lenzen's growing catalog of paracording instruction books. Showcasing twenty-five carefully chosen classic and original knots and ties, its focus is stylish and readily reproducible pieces tailored for promotion and sale. Of course, PPI isn't only for those interested in fundraising and profits. It's also a book for anyone seeking to step up their paracording knowledge and enjoy themselves while doing it. Through crisp, clear, full-color photographs, PPI presents detailed instructions for decorative knots, braids, bars, sennets, falls, a coin wrap, globe knot, and a variety of other never-before presented projects, geared to impress, inform, and inspire. Paracord Project Inspirations, a book that combines knots and ties of the past with knots and ties of the present, so you can launch your paracording skills into the future!

## Customer Reviews

TAIT on YouTube presents easily understood directions to create interesting items out of paracord. The second book is as good as the first. I carry lengths of paracord on my keychain, have a quick-deploy bracelet, and other items. If you want to fool around with making paracord bracelets, fobs, etc., this man is the master of clarity and inventiveness. Recommended.

J.D manages to inspire me. With severely damaged hands and agony, J.D has given me then inspiration to motivate myself into paracord knots ties and other intricate designs. Sure it hurts like

hell, yet the irony is I can never wait until his next book to see what wonders he has in store for me next. One very happy Aussie Veteran.

Great addition to the ever expanding paracord world. If you are a beginner or expert tier or you are just interested in a new hobby, this book is a great find. I also recommend Paracord Fusion Ties volumes 1 and 2!!

I like the emphasis put on paracord items that are less bulky and cumbersome than the traditional survival fare. The inclusion of knot fasteners instead of clips adds to artistic presentation. Thanks from someone who hopes to survive without untying my bracelet! - Wyoming fan

JD's book's are the best on paracord available. The pictures are clear, the instructions are easy to follow. The pages are of good quality, thick and glossy.

This book is definitely worth getting for anyone that's into paracording. J.D.'s knots are absolutely amazing! I'm tying so much lately that i am gonna need to put in a huge order for cord here soon. Even my kids are having a blast with his books!

J.D. Lenzen always does a good job of illustrating his knotting projects. This is my fourth book by him and I recommend him highly. He's very creative, which is hard to find anymore in the knotting world. You can also go on YouTube and find his step by step knotting projects. I have 51 knotting books in my collection, so you know I like the subject.

• • • -- I really like this book because the pictures are well laid out and every knot, twist, loop are well illustrated. The author makes it very simple to follow. All the pictures that are depicted are in color and the paracord colors he uses are bright pastel colors so each knot is easy to follow. I'd recommend this book for children and adults of all ages.
