Customer Reviews

I could probably do without all the plans for A-Frame homes, but there are still enough other plans here to dream about over a cup of tea.

It seems like if "Sunset" publishes it, it's worth having a look at. I liked this plan book a lot, it had a nice variety of floor plans. The illustrations were pleasant, and I would think a person would get a plan that was what they needed or close to it. It's fun to surf plans, and then alter them a bit if they're not quite the "perfect" plan. I doubt there are very many plan books that have everything totally penciled out, since they really want you to buy their floor plans after you see the samples in the books. Nice book!

Book is well worth the money. Has a good mix of cabin plans actual floor plans cost extra but it gives you a good idea as to whats out there....

A few bits of useful knoweledge, a few floor plans, a nice book to sit by the fire with and dream

about cabins.

IT IS A NEAT BOOK WITH ALOT OF IDEAS FOR BUILDING AND ALSO USE IT TO DO
REVONATIONS DTO EXISTING HOUSES

Terrible very old half the plans aren't available.

Good plans, easy to understand.
