Customer Reviews

Good pictures and overall information on early hard plastic dolls. I especially liked the section listing unique details of doll bodies & clothes for each manufacturer which helps to identify unmarked dolls.

There are so many similarities between the Hard Plastic dolls of the 50's that this book was a Godsend. I was able to identify each and every one of my dolls. Some of them had actually been misnamed by the person that I bought them from. So many companies, so many characteristics, so many dolls! Now you can get yourself and your dolls correctly identified and labeled. A must for a lover of those Hard Plastic Dolls! If you like this book, you might want to get Volume 2.

I really liked this book for general pictures to assure a doll has all the correct hairstyle, year created, accessories. It is also good for making sure you are not purchasing a doll with an incorrect dress. It is too bad it has not been updated with cost information. However, there are some other books with

this info.

The photos are rather small with not a lot of descriptions. The photos are predominately black and white and there is not indication of original dolls and clothing. Kind of leave the reader to arrive at their own decisions.

I loved the book it helped me a lot in my dolls searching.

Bought this book to go with the first edition. Find there is alot of helpful information in these books,this book has been very helpful to me.
